

## List of Myōjin taisha(名神大社)

- This is a list of *myōjin taisha*. It contrasts the names of *myōjin taisha* mentioned in the *Jinmyōchō* in books 9 and 10 of the *Engishiki* with those mentioned in the section on special festivals in book 3 of the *Engishiki*, since there are occasionally differences between them.
- The middle column(1) shows the name of 310 *kami* at 224 shrines listed in the *Jinmyōchō* found in books 9, while the right one(2) shows the name of 285 *kami* at 204 shrines listed in the section on special festivals in book 3 of *Engishiki*. Each shrine name is followed by a number that indicates the number of *kami* who received imperial *heihaku* offerings. In cases where names of the shrines are not listed in the section on special festivals despite being listed in the *Jinmyōcho*, “no mention” is written in the right column. When the name of a shrine on the *Jinmyōcho* is the same as the one in the section on special festivals, “as on the left” is written in the right column. When two names for the same shrine partially differ, or where the non-official name on the *Jinmyōcho* is recorded in the section on special festivals, the name used in the section on special festivals is written in parentheses in the right column. Similarly, if the number of *kami* worshipped at a shrine whose name is written in the section on special festivals is different from that which is written in the *Jinmyōcho*, the number of *kami* is written in parentheses in the right column. When both the name and the number are different, both are written. Finally, the order of the list follows that of *Jinmyōcho*.
