

List of Daijōsai

- This list is mainly based on *Rikkokushi* and *Shiryō sōran*, with other sources used as references.
- There are various explanations regarding the origin and institutionalization of *Daijōsai*; this list begins with the historically verifiable observance in the Tenmu period (673 CE).
- The era names from the Nanbokuchō period (Northern and Southern Court period) are usually written with the southern ones first; however, this list counts the northern ones first; for, all of *Daijōsai* confirmed to have been held in this period belong to the northern line.
